

CopperHead® XD™ 3.0

We Are Passionate About Your Success!

Features & Benefits

- Screeds flat, single, or dual slopes
- Immediate labor savings
- Improve FL numbers
- Increase productivity
- Fewer work comp injuries
- Incredible torque
- Minimal physical effort
- Remote grade adjustment
- Vibrator soft start
- Quick disconnect head assembly

The CopperHead® XD™ 3.0 is the right machine for contractors who want better performance when you encounter difficult applications such as:

- Upper decks
- Chaired rebar or mesh
- In floor heat & freezer slabs
- Ice rinks

The CopperHead® XD™ 3.0 uses Somero's patented laser leveling technology to cut the concrete to a finished grade, screed it flat, and vibrate it smooth in one pass. You will be able to work faster because the CopperHead® XD™ 3.0 sets grade automatically, allowing the operator to move quickly and efficiently through the work area.

The CopperHead® XD™ 3.0 compact and lightweight design, insures ease of operation. A 14 HP engine provides increased power to the drive train for a smoother ride.

The CopperHead® XD™ 3.0 comes with a convenient electric start motor and new features that makes operating the machine easier and more accurate. The hydraulic drive motors keep the XD pulling low slump concrete and riding smoothly over chaired rebar and other obstacles.

The machine auto level system makes achieving great high tolerance floors easy.
